Statement of Qualifications and Experience

Promised Land Survey, LLC (PLS) was established in February of 1998. We founded our company with a desire to provide professional land surveying services throughout New Hampshire. Since inception, we have performed land survey work in every county of New Hampshire, as well as every state in New England, and GPS/GIS work internationally. Timothy A. Peloquin, LLS, is founder and owner. Please visit our web-site www.PromisedLandSurvey.com to learn more about our company and our excellent personnel.

Prior to founding PLS, Timothy A. Peloquin, LLS worked as a Vice-President of a mid-sized engineering firm in Manchester, New Hampshire. He was responsible there, and equally today, for all Land Survey work, inclusive of boundaries, topographic and engineering surveys, ALTA/ACSM surveys, GPS control surveys, subdivisions, construction surveys, as-built surveys, survey reports, GIS mapping, etc., as well as local, county, and State permitting processes associated with the aforementioned.

Additionally, we have been very actively involved in our national and State professional organizations. Mr. Peloquin has been an active member of the American Congress on Surveying and Mapping (ACSM/NSPS) since 1993 and has been an active member of the New Hampshire Land Surveyors Association (NHLSA) since 1992, where he now serves as Past President. He is Vice-Chairman of the Raymond Exit 5 Special Advisory Committee and also serves as Vice-Chairman of SEFNE. He has also been active in his local community of Chester, serving as the President of the Parent-Teachers Association (PTA) and various other committees, and is active within his church, serving as Youth Director for many years, and now currently serving as Deacon.

Our staff at PLS (which includes two Licensed Land Surveyors, Licensed Subsurface Designers, well trained CAD & Survey Technicians, and two plus full-time field crews) is wide ranged in experience, education, and responsibilities. We will continue to grow to serve our excellent clientele. An abbreviated list of clients is attached as part of this proposal and we'd encourage you to contact them as needed to assure our good reputation.

Our full commitment is to excellence within our profession. We assure timely delivery, very competitive prices, and complete client satisfaction. Please consider our company in your upcoming project.

Thank you.

Respectfully,

Promised Land Survey, LLC
Timothy A. Peloquin, LLS
